Sam,

We talked with Jennifer Wilbur this morning to iron out some of the details we had been discussing with you Friday. A point she brought up was the amount of C6 funding we had in the region. As of this morning we have \$569K in intramural and \$3.023M in extramural funds that is available. We know that SF may have some response/removal work outside of Gold King Mine to accomplish this fiscal year. With that said, we may want to see how much of the \$3.594M we do not want to execute as OSWER looks to realign resources to fund this response. Collectively they have identified approximately \$60M available across all RPIOs that could be tapped if necessary.

We plan to share this information with our R8 and R9 counterparts so they can share with their management as well. Please let us know if you have any questions.

Respectfully,

**Ralph Ferguson**
